Really, Erikson’s new online master of science in early childhood education is a 28-month, 38-credit program that helps you do what you love, and do it better.

The focused, integrated curriculum will give you a deeper understanding of young children and a new way of looking at yourself as an educator. You’ll be part of a cohort, a community of practice in which you can identify and focus on the issues that matter most to you— as a teacher, a curriculum coordinator, or a director/principal; develop and refine advanced practice skills; integrate and apply critical child development theory; collaborate with and learn from peers.

And you can work at home, in the office, in the early morning, or late at night. It’s the perfect way to reach your true potential as an educator.

### Year one

#### Spring Semester
- Family and Culture (3 credits)
- Integrative Seminar: Leadership in Early Childhood Education I (2 credits)

#### Summer Semester
- Foundations of Schooling and Curriculum for Pre-K to Grade 3 Programs (3 credits)
- Key Concepts for the Pre-K to Grade 3 Curriculum: The Role of Content Knowledge in Teaching and Learning (2 credits)

#### Fall Semester
- Human Development (2 credits)
- Integrative Seminar: Leadership in Early Childhood Education II (2 credits)

### Year two

#### Spring Semester
- Development of Cognition, Language, and Play I: Cognitive Development (3 credits)
- Working with Adults: Collaboration and Supervision (3 credits)
- Integrative Seminar: Leadership in Early Childhood Education III (2 credits)

#### Summer Semester
- Development of Cognition, Language, and Play II: Language Development (2 credits)
- Physical Growth and Development (2 credits)
- Assessment for Classroom Teachers (2 credits)

#### Fall Semester
- Advanced Methods of Teaching and Learning across the Pre-K to Grade 3 Curriculum (3 credits)
- Integrative Seminar: Action Research in Diverse Early Education Settings I (2 credits)

### Year three

#### Spring Semester
- Advanced Methods of Teaching and Learning across the Pre-K to Grade 3 Curriculum (3 credits)
- Integrative Seminar: Action Research in Diverse Early Education Settings II (2 credits)

### Technical requirements

The Erikson Online learning environment is built on Blackboard Learn, an industry-leading distance learning management system. You’ll need a computer, easy-to-use online tools like Adobe Acrobat Reader, PowerPoint, Microsoft Excel, and Facebook. To get the most out of your courses, you’ll need access to a high-speed Internet connection. For details on technology requirements, see our website [www.erikson.edu/online/tech](http://www.erikson.edu/online/tech).

Erikson's online program is unlike any other.

Why Erikson?

Erikson was founded on the belief that all children deserve the best chance to learn and grow. Three simple, radical ideas form the basis of an integrative seminar—a real community of practice—that has evolved since the beginning of the program. You’ll have the input and feedback of your seminar—a real community of practice—that joins theory to practice; puts you in touch with peers and adults in their practice; and provides you with deep knowledge of the child’s developmental, emotional, and social-emotional characteristics. Why things are the way they are.

You’ll work closely with one faculty member, someone who will engage you in relationships and collect data, which you will analyze in the context of his or her field of practice. It provides you with the input and feedback of your seminar—a real community of practice—that joins theory to practice; puts you in touch with peers and adults in their practice; and provides you with deep knowledge of the child’s developmental, emotional, and social-emotional characteristics. Why things are the way they are.

Children, like adults, learn best in responsive relationships. Erikson faculty engage students in relationships and encourage students to reflect on and explore the relationships they have with children and adults in their practice.

I am completely impressed with the lengths that the Erikson community has gone to ensure we feel a part of that community. It is very simple, radical ideas form the basis of an integrative seminar—a real community of practice—that has evolved since the beginning of the program. You’ll have the input and feedback of your seminar—a real community of practice—that joins theory to practice; puts you in touch with peers and adults in their practice; and provides you with deep knowledge of the child’s developmental, emotional, and social-emotional characteristics. Why things are the way they are.

The key to improving practice is professional development. That’s why the Erikson program was designed to give you all the pieces you need—both parts of the integrative seminar are designed to help you advance your skills and practice to the next level, and it’s your own experience and improve your practice. It’s simple, radical ideas form the basis of an integrative seminar—a real community of practice—that joins theory to practice; puts you in touch with peers and adults in their practice; and provides you with deep knowledge of the child’s developmental, emotional, and social-emotional characteristics. Why things are the way they are.

In 1966, Erikson was founded on the belief that all children deserve the best chance to learn and grow. Three simple, radical ideas form the basis of an integrative seminar—a real community of practice—that joins theory to practice; puts you in touch with peers and adults in their practice; and provides you with deep knowledge of the child’s developmental, emotional, and social-emotional characteristics. Really. Erikson's new online master of science in early childhood education is a 28-month, 38-credit program that helps you do what you love, and do it better.

The focused, integrated curriculum will give you a deeper understanding of young children and a new way of looking at yourself as an educator. You'll be part of a cohort, a community of practice in which you can identify and focus on the issues that matter most to you—as a teacher, a curriculum coordinator, or a director/principal; develop and refine advanced practice skills; integrate and apply critical child development theory; collaborate with and learn from peers.

And you can work at home, in the office, in the early morning, or late at night. It's the perfect way to reach your true potential as an educator.

Year one
Spring Semester
- Family and Culture (3 credits)
- Integrative Seminar: Leadership in Early Childhood Education I (2 credits)

Summer Semester
- Foundations of Schooling and Curriculum for Pre-K to Grade 3 Programs (3 credits)
- Key Concepts for the Pre-K to Grade 3 Curriculum: The Role of Content Knowledge in Teaching and Learning (2 credits)

Fall Semester
- Human Development (2 credits)
- Integrative Seminar: Leadership in Early Childhood Education II (2 credits)

Year two
Spring Semester
- Development of Cognition, Language, and Play I: Cognitive Development (3 credits)
- Working with Adults: Collaboration and Supervision (3 credits)
- Integrative Seminar: Leadership in Early Childhood Education III (2 credits)
- Physical Growth and Development (2 credits)

Summer Semester
- Development of Cognition, Language, and Play II: Language Development (3 credits)
- Physical Growth and Development (2 credits)
- Integrative Seminar: Action Research in Diverse Early Education Settings I (2 credits)

Fall Semester
- Advanced Methods of Teaching and Learning across the Pre-K to Grade 3 Curriculum (3 credits)
- Integrative Seminar: Action Research in Diverse Early Education Settings II (2 credits)

Year three
Spring Semester
- M.S. in early childhood education leading to initial teacher certification
- M.S. in child development/M.S.W. in clinical social work with Loyola University Chicago

Technical requirements
The EriksonOnline learning environment is built on Blackboard Learn, an industry-leading distance learning solution. You'll utilize other free, easy-to-use web-based tools like Adobe Acrobat Reader, Flash Player, Skype, Delicious, and Facebook. To get the most out of your courses, you'll need access to a high-speed Internet connection. For details on technology requirements, see our website www.erikson.edu/onlinetech.
There's a way to take your practice to the next level, and at your fingertips.

Erikson's online program is unlike any other.

Why Erikson?

Integrative seminar
The core content is a program-long seminar—real community of practice—that focuses on helping you recognize and apply what you're learning.

Both parts of the integrative seminar are designed to give you all the pieces you need—

- **The core, a carefully sequenced set of six child development courses**
  - A child is more than his or her body, emotions, intellect, language skills, learning disabilities, or personal challenges. He or she is a whole individual who develops in a unique way. 
  - Every child brings to their environment a unique set of experiences, challenges, and strengths.
  - By focusing on curriculum and assessment apart, whatever their field of practice. It provides you with a thorough orientation to the online environment like no other.

- **The capstone, a culminating project**
  - You'll have the chance to bring your learning to life and apply it to a project. You'll bring issues from your practice and personal experiences to integrate with your coursework and research.

Theory to practice
You'll bring theoretical frameworks to your daily practice in order to advance your skills and practice to the next level.

There's a new way to take your practice to the next level. And it's at your fingertips.

Erikson joins theory to practice in a way that allows you to advance your skills and practice to the next level.

- **Core courses**
  - The core, a carefully sequenced set of six child development courses, joins theory to practice in a way that allows you to advance your skills and practice to the next level.
  - It provides you with the knowledge of the child's physical, emotional, intellectual, and social development, including the social and cultural contexts in which children develop.
  - Each child brings to their environment a unique set of experiences, challenges, and strengths.
  - By focusing on curriculum and assessment apart, whatever their field of practice. It provides you with a thorough orientation to the online environment like no other.

- **Capstone project**
  - You'll have the chance to bring your learning to life and apply it to a project. You'll bring issues from your practice and personal experiences to integrate with your coursework and research.

Erikson's online program is unlike any other.

Why Erikson?

In 2005, Erikson was founded on the belief that all children deserve the best chance to grow up to be their best and analyze those they have left on the praxis and practice of the community you've been a part of since the beginning of the program. You'll bring issues from your practice to advance your skills and practice to the level in mind. You'll be using advanced dis- ciplines, intellect, language skills, learning about the complex interplay of influences on A unique, three-part program that fosters theory to practice through action.

Integration seminar
The first critical component is a program-long seminar—a real community of practice—that focuses on helping you incorporate and apply what you're learning. During the first five semesters, you'll work with a family members, mentors who will help you develop your skills and comfort with people who come from backgrounds very different from your own and help you understand that all children deserve the best chance to grow up to be their best.

Erikson participates in the William D. Ford Direct Loan program, which allows students to be awarded federal loans with the support and guidance of the instructor. During the first five semesters, you'll work with a family member, someone who will help you develop your skills and comfort with people who come from backgrounds very different from your own and help you understand that all children deserve the best chance to grow up to be their best.

Specialized courses
These courses are specifically designed to give you all the knowledge and skills you need to improve practice. Specialized courses are offered in educational psychology, cultural studies, and other advanced areas of knowledge. They offer a thorough orientation to the online environment before you start, and there's a real person standing by to help you if you need it.

Children, like adults, learn best in responsive relationships. Erikson faculty engage students in scholarship and encourage students to rethink and rethink the relationships they have with children and adults in their praxis. The key is to improving practice in professional development. That is why the Eriksen seminars, Erikson students develop the habit of asking themselves questions on their own role in their educational and professional praxis. At Erikson, you'll have input and feedback of your peers. You'll bring issues from your practice to improve your practice, and you'll have the input and feedback of your peers. You'll bring issues from your practice to improve your practice, and you'll have the input and feedback of your peers. You'll bring issues from your practice to improve your practice, and you'll have the input and feedback of your peers.
